Bill,

As best I understand, the BAE contract extension (no-cost) with UDRI is still awaiting approval by the Army. Until that happens, UDRI cannot charge.

I believe all of the raw data are in except for the dioxin results – Our HRMS crashed in December (?) and we are trying to go through the IT hurdles to get the computer workstation purchase blessed.

Brian

**Subject:** OBG data processing

Good afternoon and hope you all are well. I've been asked by the Army contact for an update on the data process and what would god milestone dates be. Can you let me know what your current steps and estimated dates are?

Thanks, Bill

Bill Hendon P.G., C.P.G.
